# MURDER

Murder and non-negligent manslaughter is the willful (non-negligent) killing of one human being by another.

## VOLUME AND RATE

During 2009, a total of 440 murders were reported. This represents an 11 percent decrease over 2008. Murder accounted for one percent of all violent crime and less than one percent of the crime index. In 2009, there were 7.7 murders per 100,000 of population.

## ANALYSIS OF MURDER

In 2009, 282 murders were cleared with seven percent of these clearances involving only juvenile offenders. A total of 319 persons were arrested for murder during 2009. A breakdown of persons arrested for murder was 91 percent male, nine percent female, 12 percent juvenile, 75 percent Black, 23 percent White and two percent consisting of American Indian and Asian.

During 2009, 193 of the murder victims were in the 18 to 29 age group, representing 44 percent of the total. There were 40 juvenile victims of murder, accounting for nine percent of the total murder victims.

Handguns were used in 68 percent of the reported murders in 2009. This represents a nine percent decrease in their use when compared to the handgun use in 2008. The next most used weapon was a knife, accounting for 13 percent of the reported murders in 2009. This represents a three percent decrease when compared to 2008.

Drug related murders accounted for one percent of the total in 2009, as compared to two percent in 2008.

Family members, as offenders in murder, accounted for ten percent while boyfriend or girlfriend (those not cohabitating) reflects one percent of the total reported. There was a 28 percent decrease in family-related murders, while boyfriend or girlfriend murders decreased 50 percent from 2008. Additionally, an acquaintance is listed in 17 percent of the

# MURDER

Murder and non-negligent manslaughter is the willful (non- negligent) killing of one human being by another.

## VOLUME AND RATE

During 2012, a total of 372 murders were reported. This represents a seven percent decrease over 2011. Murder accounted for one percent of all violent crime and less than one percent of the crime index. In 2012, there were 6.3 murders per 100,000 of population.

## ANALYSIS OF MURDER

In 2012, 228 murders were cleared with four percent of these clearances involving only juvenile offenders. A total of 257 persons were arrested for murder during 2012. A breakdown of persons arrested for murder was 93 percent male, seven percent female, five percent juvenile, 85 percent Black and 15 percent White.

During 2012, 169 of the murder victims were in the 18 to 29 age group, representing 45 percent of the total. There were 21 juvenile victims of murder, accounting for six percent of the total murder victims.

Handguns were used in 73 percent of the reported murders in 2012. This represents a two percent increase in their use when compared to the handgun use in 2011. The next most used weapon was a knife, accounting for 13 percent of the reported murders in 2012. In 2011, knife accounted for 19 percent of the reported murders.

Drug related murders accounted for three percent of the total in 2012, the same as in 2011.

Family members, as offenders, accounted for 12 percent of the total murders, an increase of one percent from 2011. Of the family members as offenders, husband and wife or boyfriend and girlfriend (those who had cohabitated) reflect five percent of the total murders reported.

Additionally, an acquaintance is listed in 18 percent of the murders reported in 2012. Strangers and unknown relationships accounted for two other large categories, 17 percent and 75 percent respectively.

In 38 percent of the murders, the offenders are unknown and not described. When the race of the victim and offender is known, the offender is most often someone of the same race.
